LEVEL 1 TRAINING (3 DAYS) £395 PER PERSON

Level 1 training leads to practitioners operating at the level of NVR Informed practice.

The training covers the foundations of Non Violent Resistance (NVR) leading to an understanding of the core principles and applying these to your practice.

The primary goal of the NVR intervention is to repair and rebuild relationships that have become stressed by the child's controlling behaviour. The participants will learn how to help their clients understand these behaviours and learn strategies for challenging and changing these behaviours.
